## NEW WORK EFFECTIVELY DESIGNED

With our products, we support companies in shaping the future of work - in the interests of their employees. Together, we transform open-plan offices into productivity hubs where everyone can unleash the potential.

Our booths have a minimalistic, modern and timeless design. Producing in Germany, we guarantee a high value for money. In that way we enable silence in any office space. Because undisturbed work should not be a luxury

# OUR PRINCIPLES

## WE STAND FOR

We are a young, dynamic company from Berlin. For us, long-term success always takes precedence over short-term profits.

This is exactly the principle we follow in our relationships with our partners and customers. We are always available as an approachable and open contact partner and go the extra mile for mutual success.

Speed and reliability are our hallmarks, no matter how big the project.

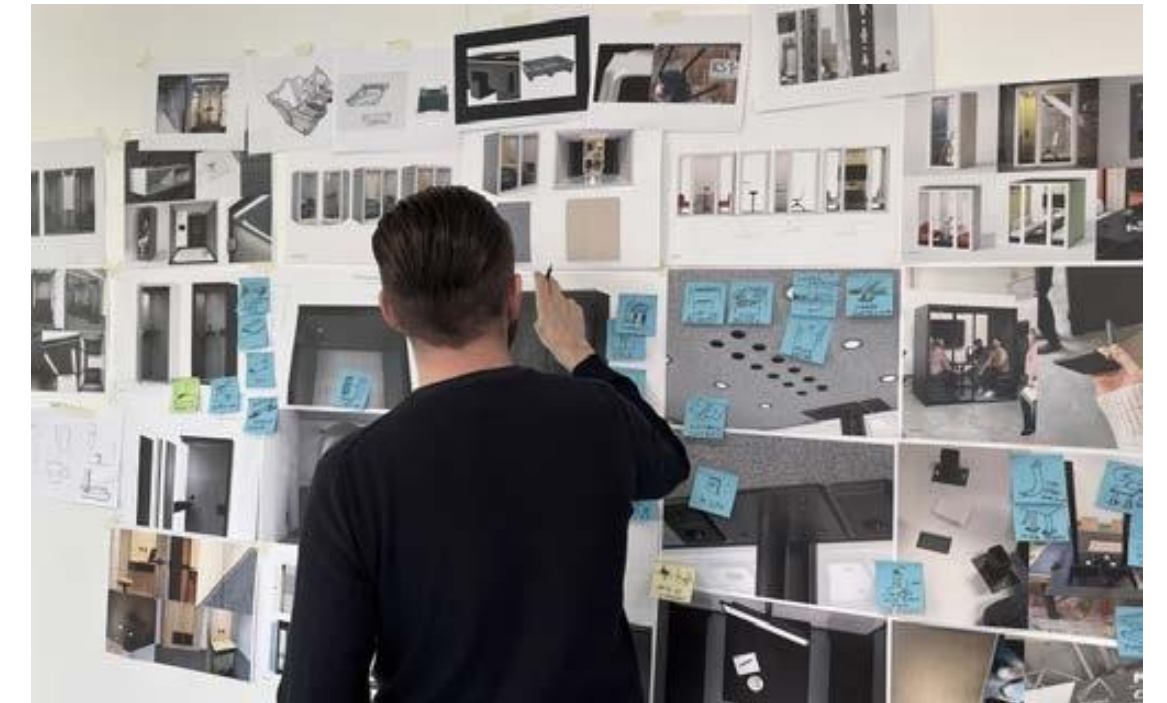

## SUSTAINABILITY & QUALITY

High demands on sustainability and quality do not stand in the way of each other in any way. We combine both aspects at our 3 production sites in Germany.

Moreover we source >90% of our raw materials from the region. This local proximity allows us to ensure our high production standards and a fundamental independence from global supply bottlenecks at all times.

**BERLIN  
ACOUSTICS**

## INTELLIGENT DESIGN

For us, beauty lies in simplicity. That's why we focus on a minimalistic, modern and timeless design for our booths. Unnecessary and expensive extras? Not with us!

In product design, we always follow an iterative process that takes all business areas into account and is based on continuous improvement. This means that our booths offer everything you need and are always in tune with the times.

# OUR PRODUCT CERTIFICATIONS

## DIN EN ISO 9001

We have implemented a quality management system which we are constantly developing further. The consideration of customer feedback plays a decisive role in doing so.

## DIN EN ISO 14001

Our environmental management system forms the guidelines for the topic of sustainability, which is an essential part of our principles.

## BLAUER ENGEL

The wood we use is produced in accordance with the strict standards of the "Blue Angel" eco-label. The certificate underlines not only the sustainability, but also the high quality of our products.

## CAM

We fulfill all the requirements of the "Quaderno Tecnico - Criteri Ambientali Minimi (CAM) - Settore 'Legno-Arredo'", which is further proof of the sustainability of our products.

## FSC (Forest Stewardship Council)

For the use of wood from responsibly managed forests, recycled materials and other controlled sources.

## DIN EN ISO 23351-1

Our booths are measured related to the degree of noise reduction. The Class B result underlines the exceptional acoustic performance, especially when comparing to competitors in our price segment.

\*On request we are happy to provide the actual certificates.
